- * **WOOD STOVE:** The stove has 2 vents. One on the stove pipe and the other on the front of the stove. Make sure both vents are open when starting a fire. The stovepipe vent is **vertical** for “open” and **horizontal** for “closed”. The vent on the front of the stove is **right** for “open” and **left** for “closed”. Close and lock the door and then partially close the vents to control the heat. **OPEN DOOR SLOWLY, ONCE FIRE IS GOING AND DO NOT LEAVE DOORS OPEN!!** Leave at least 2 inches of ash when cleaning out wood stove. Allow the ashes to cool before removing from the stove, Empty **only** into the ash can. **Do not** empty ashes into anything else. You may **discard cooled ashes at the end of the driveway.**
- * **Don't throw them off the porch, in the woods or leave them in the ash can in the house or on the porch, it's a fire hazard!**
- * **AIR CONDITIONER:** Located behind the “bear” wall hanging, by the wood stove. The A/C is operational during the summer months.
- * **TELEPHONE CALLS:** In state calling is free, but there is no long distance service so, please use a calling card when calling outside the state of NH.
- * **CLEAN UP:** Our rates are kept low because there are no house cleaning services, so please tidy up and leave the chalet clean for the next guests, this is to include vacuuming and cleaning toilets and tubs/showers. Cleaning supplies are in the kitchen, closet and bathrooms.
- * **Cigarettes:** No smoking in the house at all.
- * **Pets:** are **not** allowed at this facility.
